

InnoTrans 2022: Update July 2022

-- English version ----- version française --

Dear Co-Exhibitor,

We are pleased to provide you with the most important current information on our joint stands at InnoTrans 2022. All information can also be found on [SwissrailNet](#). All the information you need during the trade fair can be found in the [stand info](#).

The topics in this update:

- Visitor tickets, exhibitor passes and set-up/dismantling passes
- Meeting room
- Stand Info ("Last Minute Info")
- Reception of the Swiss Ambassador
- Registration stand personnel
- Video interviews
- Catering information
- Hotel information

The next ToDo's for our co-exhibitors:

- Register stand personnel
- Register guests for the ambassador reception
- Order admission tickets, exhibitor passes and set-up/dismantling passes.

Visitor tickets, exhibitor passes, set-up and dismantling passes

The different types of tickets and passes available always lead to confusion. We have therefore compiled a clear table from which you can see the differences between the various tickets including places of purchase. You can find the table [here](#).

Please order the required passes in good time. You will automatically receive codes for admission tickets immediately. Exhibitor passes and set-up/dismantling passes will be sent out with a delay to minimize handling fees for the trade fair.

Order [here](#).

Meeting room

As in previous years, meeting rooms will be available on the stands in 2022. In Hall 26, there are two meeting rooms for 6 and 8 people right next to the stand. In Hall 2.2 we now have 5 meeting rooms for 6-10 people. The meeting rooms can be booked now via [Stand Info](#).

Stand Info ("Last Minute Info")

Those who have participated in Swissrail trade fairs in the past know the "Last Minute Info", in which we summarize the most important information that our co-exhibitors need during the trade fair.

In order to keep the documentation up to date on the one hand, but also to fulfill the wish for a printable document on the other hand, we make all information available at <https://standinfo.swissrail.com>. No user name or password is required, you can pass the link on to your stand personnel. The link is activated as of now and will be extended gradually.

If you want a printed document, you can click on "Export" to create a PDF document that you can print.

Reception of the Swiss Ambassador

Also in 2022 we have invited the Swiss Ambassador in Berlin to the official reception at the Swissrail stand in Hall 2.2. Again, the reception will take place on Thursday afternoon.

Swissrail will send an official invitation to this event. Please notify us of persons who should be invited via the following link: [Invitation Ambassador Reception](#). Co-exhibitors will be invited, you do not need to register your own company members.

Registration stand personnel

We will distribute the co-exhibitor badges at the stand handover and on Tuesday before the start of the trade fair. These badges allow access to the restaurant and serve as name tags on the stand. For this purpose we need all names of those persons who will be present at the booth. Please register your personnel as soon as known under the following link: [Register booth personnel](#). You can register additional persons until one week before the start of the fair (September 12, 2022).

Video interviews

We will also have a professional film team on the stands at this year's InnoTrans. Short video contributions will be produced daily on predefined topics and published on our channels. If you would like to be included in the editorial schedule, please fill out [this survey](#) or contact [Debora Zihlmann](#). This will allow us to optimally plan the short interviews during the InnoTrans week.

Catering information

Our caterer Dorint has also become a victim of the staff shortage in the hospitality industry and therefore surprisingly resigned from the contract. Fortunately, we have already been able to find a successor: The company [Genussboten](#) from Berlin will operate our two restaurants. We are looking forward to the new start with a competent partner at our side!

If you have made special arrangements with the old caterer contact us so we can put you in touch with the new provider.

Hotel information

Our room contingent at the Hotel Titanic am Gendarmenmarkt is already completely booked for individual next. If you need more rooms, you can request availability at fabian.riesen@swissrail.com. Otherwise, we recommend searching and booking via hotel platforms such as [hotels.com](https://www.hotels.com) and [booking.com](https://www.booking.com).

If you have any further questions, please do not hesitate to contact us at swissrail@swissrail.com.

Kind regards, Your
Swissrail Team
